

I am a K-Love listener and want to express my opinion about this radio station. I listen to this station at work on line and it is set on my radio dial in my car. I know that my friends and other co-workers also have their car stations set to this station. Their title says it all. Encouraging... My Mom was currently diagnosed with cancer and the first few days I was having a very hard time coping but listening to this station and the songs being played made it easier. I have also heard this station in Doctors office which is also a great comfort. PLEASE do not take this off the air in my area, I need this daily. Thank you, Debbie Burkholder
